Oct. 20-22	Arizona Air Races	Marana, AZ	Air Race / Air show	Racing in Sport Class / Static
Nov. 11-12	Aviation Nation	Las Vegas, NV	Air Race Demo / Air show	Racing / Static display

The National Aeronautics Association (NAA) has named Blue Thunder's speed record runs at Marysville, CA last year, one of the [Most Memorable Records of 2005](#). The NAA highlighted the C1c 15/25km world speed record of 376.18 mph, besting the old record by 76 mph. Once again we would like to thank Brain Utley, Art Greenfield, and everyone at the National Aeronautic Association, along with all those involved with the Golden West Fly-in for making those record runs possible.

Since the Reno Air Races are a full 5 months away, we have put up a short video available for download in the [gallery](#) section of our website to hold you over. This video was produced by Christopher Webb Films and is part of a documentary that they are doing on air racing. Given the quality of this short, the whole film will surely be a masterpiece.

Thank you all once again for your continued interest in our team and sport. Without our friends and sponsors like Aero-Mag, [Falconer Racing Engines](#), [ERC Racing Fuels](#), [Aviator Real Estate](#), and the O'Brien Family, none of this would be possible. We look forward to seeing you during the 2006 season and who knows, we just might surprise you.

Sincerely,

Blue Thunder Air Racing
